Are you looking for a natural, alternative option for improving the health of your pets?

Are you ready for an easier, less expensive way of keeping your pet's teeth and gums health?

GET AMAZON HERBS!

We have a crisis in the health of our household pets. 1 out of every 2 dogs in the U.S. will die with cancer. Urinary tract infections and kidney stones are at epidemic levels in cats. Our pets now face degenerative diseases like these as well as Diabetes, Leukemia and Arthritis. Why? We have removed them from the way that Mother Nature fed them. (Read More...)

So how can we help them? Amazon Herbs! By adding the benefits of whole, wild foods from nutrient rich soils that have been composted for millions of years we add back in the vitamins, minerals and enzymes that have been lost in today's food.

Amazon Herbs are whole, concentrated foods, not drugs.

You need not be concerned that your pet is getting too much.

Animals of all kinds have benefited from using these herbs for:

* allergies * itching * pain * parasites * ear infections * tarter & gum irritation * wounds * yeast, fungal, mold & bacterial infections * improved digestion & metabolism * post surgical assistance * anxiety *

The list goes on and on. Like you, your pet's health is challenged by overly processed foods, environmental toxins, lack of exercise and stress. Amazon Herb products are all-natural, chemical-free and were never exposed to pesticides or irradiation.
